**Mediterranean Oculofacial Meeting**  
**Aquila Atlantis Hotel, Heraklion, Crete,**  
**12-13 October 2025**

Dear friends,

It is our pleasure to invite you to the first Mediterranean Oculofacial Meeting, an event jointly organized by the Greek and Turkish Oculoplastic Surgery Societies in Heraklion, Crete, 12 October 2025. We share a common vision of developing oculoplastic culture, promoting research and education in our scientific field as well as providing optimal clinical services to our patients. Türkiye and Greece are bound to co-exist through history and geography and we believe that such events offer opportunities for exchange of ideas as well as scientific interaction and co-operation between our Oculoplastic and Ophthalmological communities. Hopefully these efforts may also trigger the interest in involvement of more National Oculoplastic Societies from the Mediterranean region.

The scientific program covers wide areas of oculoplastic surgery and pathology, with insights into the current trends in diagnostic technologies, conservative and interventional treatments. We ask you to actively participate and hope you will enjoy it!

On behalf of the organizing committee

Efstathios T. Detorakis

President, Hellenic Ophthalmic Plastic Surgery Society

Suat Hayri Uğurbaş

President, Turkish Oculofacial Plastic Surgery Society

# Sunday 12 October 2025

## Scientific Program

**"Radiologic Clues in the Differential Diagnosis of Orbital Masses"**

Zeynep Yazici

08.50– 09.10

**Current trends in the management of TED**

Onur Konuk

09.10–10.00

**Case Presentations and Discussion**

***"Excessive Intraoperative Bleeding in Orbital Vascular Lesions:  
What To Do?"***

*Bulent Yazici*

***"Postoperative intra-orbital hematoma in Ru-106 brachytherapy for  
choroidal melanoma"***

*George Chondrozoumakis*

***"Large recurrent orbital roof meningioma"***

*Rafaela Datseri*

***"Stereotactic radiosurgery for orbital apex lesions"***

*Amalia Mathioudaki*

10.00-10.20

### Coffee break

**10.20-11.10**

**Lacrimal and Anophthalmic Socket Session**

**Moderators:** Athanasios Roumeliotis, Volkan Dericioğlu

**10.20-10.30**

**The role of botulinum toxin in the management of epiphora**

Gamze Öztürk

**10.30-10.40**

**Surgical Approaches for severe socket contraction**

Arzu T. Çömez

**10.40-11.10**

**Case Presentations and Discussion**

***“A case of Gunderson flap in severe corneal pain”***

*Larissa Ioannidi*

***“A case of intraoperative migration of mini-Monoka tube”***

*Aristea Keramianaki*

***“A case series of endonasal DCR procedures”***

*George Pappas*

**11.10-12.45**

**Eyelid & Esthetic**

**Moderators:** Altuğ Çetinkaya, Michael Tsatsos

**11.10- 11.40**

**Trends in brow lifting procedures**

Vasiliki Drisbioti

**11.40- 12.00**

**Lower blepharoplasty and mid-face lift**

Evangelos Lokovitis

**12.00- 12.20**

**Options in Adult Ptosis Surgery**

Suat H. Uğurbaş

**12.20-12.45**

**Discussion-Closing Remarks**

**Moderators:** Ioannis Ntountas, Efsthios Detorakis, Suat Ugurbas

**13.00- 14.00**

**Light lunch**
